Profile

I am a dedicated and passionate Computer Engineering graduate with a comprehensive understanding of computer architecture, operating systems, artificial intelligence, image processing, the Internet of Things (IoT), and MySQL database management. Completing my degree in 3.5 years, I have demonstrated strong academic abilities and a commitment to excellence. My active involvement in student association organizations has honed my skills in teamwork, leadership, time management, and communication. I am committed to delivering my best in every task and thrive in dynamic and collaborative environments.

Education

**S1 - Computer Engineering** Sep 2020 - Jan 2024  
University Of Brawijaya, Malang

Internships

**Machine Learning Cohort** Jan 2023 - Jul 2023  
Bangkit Academy by Google, Tokopedia, Gojek, & Traveloka, Bandung, Jawa Barat

Certificates

- TensorFlow Developer Certificate**  
TensorFlow
- Microsoft Office Desktop Application**  
Trust Training Partners
- Foundations: Data, Data, Everywhere**  
Google
- Share Data Through the Art of Visualization**  
Google
- TensorFlow Data and Deployment**  
Coursera DeepLearning.AI

Project

- Smart Wheelchair** Aug 2023 - Dec 2023  
Laboratorium Computer Vision Universitas Brawijaya  
This project aims to create a wheelchair equipped with Computer Vision technology to detect and avoid obstacles in its surroundings.
- NiTani** May 2023 - Jun 2023  
Machine Learning Development  
Performing data collection, preprocessing, and data cleaning for the NiTani agricultural market application to generate a user-oriented recommendation model

Experience

- SEROTONIN** Aug 2022 - Jan 2023  
Leader  
Accommodating the interests and talents of Computer Engineering students in academics, sports, arts, and culture.
- Himpunan Mahasiswa Teknik Komputer** Feb 2022 - Feb 2023  
Staff
